

Stiction Eliminator and C

BY MIKE KOCHHEISER, Lubrication Specialties, Inc.

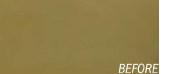

Hot Shot's Secret STICTION ELIMINATOR has been saving diesel engines since 2004. Its ability to provide superior cleaning and boost lubrication properties of the host oil make it one of the only multipurpose additives available today. Over the years, this one-of-a-kind product has been reformulated in order to remain the best possible solution for removing the layers of stiction that robs engines of power and create excessive wear over time.

The most recent development to the STICTION ELIMINATOR formula has provided an opportunity to resolve issues related to high performance gasoline engines. Similar to diesels, constant friction and extreme temperatures inside these high performance engines will result in a burning effect of the oil causing a layer of oxidized oil and its additives to form over time. Although stiction is certainly an issue in high

STICTION is the sticky-friction created from burnt oil that attaches to the injectors, turbo, rings and oil pump. ►

3RD PARTY TESTING ASTM D4828 Standard Test Method for practical washability of organic coatings
